Contents

REVIEW

Books

Plant life histories: ecology, phylogeny, and evolution • Wicken Fen. The making of a wetland nature reserve • Cellular and molecular biology of plant seed development 1

RESEARCH

Emissions, biogenesis and metabolic utilization of chloromethane by tubers of the potato (*Solanum tuberosum*)
D. B. Harper, B. M. R. Harvey, M. R. Jeffers and J. T. Kennedy 5

Effects of exogenous application and stem infusion of ascorbate on soybean (*Glycine max*) root nodules
C. J. Bashor and D. A. Dalton 19

Soluble and membrane-associated nitrate reductases in the dinoflagellate *Peridinium gatunense*
F. G. Witt, C. Stöhr and W. R. Ullrich 27

Nitrogen uptake by rhizomes of the clonal sedge *Carex bigelowii*: a previously overlooked nutritional benefit of rhizomatous growth
R. W. Brooker, T. V. Callaghan and S. Jonasson 35

Auxin transport inhibitors act through ethylene to regulate dichotomous branching of lateral root meristems in pine
D. D. Kaska, R. Myllylä and J. B. Cooper 49

Nuclear magnetic resonance imaging in studies of gravitropism in soil mixtures
F. Antonsen, A. Johnsson, C. Futsaether and J. Krane 59

Effects of drought, transgenic expression of a fructan synthesizing enzyme and of mycorrhizal symbiosis on growth and soluble carbohydrate pools in tobacco plants
L. Schellenbaum, N. Sprenger, H. Schüepp, A. Wiemken and T. Boller 67

Characterization of the enzymatic polymerization of 2,6-linked fructan by leaf extracts from timothy grass (*Phleum pratense*)
A. J. Cairns, R. Nash, M.-A. Machado de Carvalho and I. M. Sims 79

^{15}N natural abundance in fruit bodies of different functional groups of fungi in relation to substrate utilization
G. Gebauer and A. F. S. Taylor 93

Localized elongation of roots of cotton follows establishment of arbuscular mycorrhizas
V. Torrisi, G. S. Pattinson and P. A. McGee 103

Influence of an arbuscular mycorrhizal fungus on *Pseudomonas fluorescens* DF57 in rhizosphere and hyphosphere soil
S. Ravnskov, O. Nybroe and I. Jakobsen 113

A comparison of visualization techniques for recording arbuscular mycorrhizal colonization
A. C. Gange, E. Bower, P. G. Stagg, D. M. Aplin, A. E. Gillam and M. Bracken 123

Effects of mycorrhizal colonization on biomass production and nitrogen fixation of black locust (*Robinia pseudoacacia*) seedlings grown under elevated atmospheric carbon dioxide
K. S. Olesniewicz and R. B. Thomas 133

Cross-colonization of Scots pine (*Pinus sylvestris*) seedlings by the ectomycorrhizal fungus *Paxillus involutus* in the presence of inhibitory levels of Cd and Zn
J. Hartley, J. W. G. Cairney and A. A. Meharg 141

Continuity of ectomycorrhizal fungi in self-regenerating boreal *Pinus sylvestris* forests studied by comparing mycobiont diversity on seedlings and mature trees
L. Jonsson, A. Dahlberg, M.-C. Nilsson, O. Kårén and O. Zackrisson 151

Ectomycorrhizal transfer of amino acid-nitrogen to the alpine sedge *Kobresia myosuroides*
D. A. Lipson, C. W. Schadt, S. K. Schmidt and R. K. Monson 163

MAY 1999 VOLUME 142 NUMBER 2

Contents

REVIEW

Books

A molecular approach to primary metabolism in higher plants • Cellular and molecular aspects of plant–nematode interactions 169

RESEARCH

Parental environmental effects on life history traits in *Arabidopsis thaliana* (Brassicaceae)
C. Andalo, S. J. Mazer, B. Godelle and N. Machon 173

Phosphate solubilization by organic anion excretion from rice growing in aerobic soil: rates of excretion and decomposition, effects on rhizosphere pH and effects on phosphate solubility and uptake
G. J. D. Kirk, E. E. Santos and M. B. Santos 185

Phragmites die-back: toxic effects of propionic, butyric and caproic acids in relation to pH
J. Armstrong and W. Armstrong 201

Development of N_2-fixing nodules on the wetland legume *Lotus uliginosus* exposed to conditions of flooding
E. K. James and J. I. Sprent 219

Differential sensitivity of nodulation to ethylene in soybean cv. Bragg and a supernodulating mutant
J. M. Caba, J. L. Poveda, P. M. Gresshoff and F. Ligero 233

Effects of increased temperature, drought and nitrogen supply on two upland perennials of contrasting functional type: *Calluna vulgaris* and *Pteridium aquilinum*
C. Gordon, S. J. Woodin, I. J. Alexander and C. E. Mullins 243

Response to three seasons of elevated ozone in the progeny of healthy and unhealthy Norway spruce trees from a plantation with the 'top dying' syndrome
J. W. Leverenz, G. Paludan-Müller and H. Saxe 259

Leaf injury characteristics of grassland species exposed to ozone in relation to soil moisture condition and vapour pressure deficit
P. Bungener, G. R. Balls, S. Nussbaum, M. Geissmann, A. Grub and J. Fuhrer 271

Growth response of grassland species to ozone in relation to soil moisture condition and plant strategy
P. Bungener, S. Nussbaum, A. Grub and J. Fuhrer 283

Partitioning of sugars in *Lolium perenne* (perennial ryegrass) during drought and on rewatering
H. Thomas and A. R. James 295

Role of ethylene and auxin in regenerative differentiation and orientation of tracheids in *Pinus pinea* seedlings
N. Kalev and R. Aloni 307

Strategies of thermal adaptation by high-latitude cyanobacteria
E. P. Y. Tang and W. F. Vincent 315

Dynamics of mycelial growth and phosphorus partitioning in developing mycelial cord systems of *Phanerochaete velutina*: dependence on carbon availability
J. M. Wells, M. J. Harris and L. Boddy 325

Endophytic fungi associated with the temperate palm, *Trachycarpus fortunei*, within and outside its natural geographic range
J. E. Taylor, K. D. Hyde and E. B. G. Jones 335

Expression of chitin synthase genes in the arbuscular mycorrhizal fungus *Gigaspora margarita*
L. Lanfranco, M. Vallino and P. Bonfante 347

Biology of the ectomycorrhizal fungal genus, *Rhizopogon*. IV. Comparative morphology and anatomy of ectomycorrhizas synthesized between several *Rhizopogon* species on Ponderosa pine (*Pinus ponderosa*)
H. B. Massicotte, L. H. Melville, R. L. Peterson and R. Molina 355

Erratum 371

JUNE 1999 VOLUME 142 NUMBER 3

Contents

REVIEW

Tansley Review No. 104

Calcium physiology and terrestrial ecosystem processes
S. B. McLaughlin and R. Wimmer 373

Books

Concepts in mycorrhizal research 419

RESEARCH

Tribology of the root cap in maize (*Zea mays*) and peas (*Pisum sativum*)
A. G. Bengough and J. M. Kirby 421

Purification and characterization of an alkaline invertase from shoots of etiolated rice seedlings
C.-L. Lin, H.-C. Lin, A.-Y. Wang and H.-Y. Sung 427

Measurement of a growth-induced water potential gradient in tall fescue leaves
P. Martre, M.-B. Bogeat-Triboulot and J.-L. Durand 435

The influence of dissolved inorganic carbon in the rhizosphere on carbon and nitrogen metabolism in salinity-treated tomato plants
M. D. Cramer, Z. F. Gao and S. H. Lips 441

Nitrogen reserve status affects the dynamics of nitrogen remobilization and mineral nitrogen uptake during recovery of contrasting cultivars of *Lolium perenne* from defoliation
S. Louahlia, J. H. Macduff, A. Ourry, M. Humphreys and J. Boucaud 451

Silicon promotes nodule formation and nodule function in symbiotic cowpea (*Vigna unguiculata*)
A. Nelwamondo and F. D. Dakora 463

Impact of leaf damage on growth of mountain birch shoots
J. Henriksson, E. Haukioja and K. Ruohomäki 469

Measurement of leaf longevity of 14 species of grasses and forbs using a novel approach
J. M. Craine, D. M. Berin, P. B. Reich, D. G. Tilman and J. M. H. Knops 475

Effects of geminivirus infection and growth irradiance on the vegetative growth and photosynthetic production of *Eupatorium makinoi*
S. Funayama and I. Terashima 483

Patterns of arbuscular mycorrhiza down the profile of a heavy textured soil do not reflect associated colonization potential
D. B. Nehl, P. A. McGee, V. Torrisi, G. S. Pattinson and S. J. Allen 495

Apical meristems of tomato roots and their modifications induced by arbuscular mycorrhizal and soilborne pathogenic fungi
A. Fusconi, E. Gnavi, A. Trotta and G. Berta 505

Endoproteolytic activities in pea roots inoculated with the arbuscular mycorrhizal fungus *Glomus mosseae* and/or *Aphanomyces euteiches* in relation to bioprotection
S. Slezack, E. Dumas-Gaudot, S. Rosendahl, R. Kjøller, M. Paynot, J. Negrel and S. Gianinazzi 517

Evidence that differences in phosphate metabolism in mycorrhizas formed by species of *Glomus* and *Gigaspora* might be related to their life-cycle strategies
C. L. Boddington and J. C. Dodd 531

Importance of light and CO_2 on the effects of endomycorrhizal colonization on growth and photosynthesis of potato plantlets (*Solanum tuberosum*) in an *in vitro* tripartite system
D. Louche-Tessandier, G. Samson, C. Hernández-Sebastià, P. Chagvardieff and Y. Desjardins 539

Pool sizes of fructans in roots and leaves of mycorrhizal and non-mycorrhizal barley
J. Müller, U. Mohr, N. Sprenger, K. Bortlik, T. Boller and A. Wiemken 551

Molecular investigation of genet distribution and genetic variation of *Cortinarius rotundisporus* in eastern Australian sclerophyll forests
N. A. Sawyer, S. M. Chambers and J. W. G. Cairney 561

Nitrogen isotope fractionation during nitrogen uptake by ectomycorrhizal and non-mycorrhizal *Pinus sylvestris*
P. Högberg, M. N. Högberg, M. E. Quist, A. Ekblad and T. Näsholm 569
Effects of repeated harvesting of forest residues on the ectomycorrhizal community in a Swedish spruce forest
S. Mahmood, R. D. Finlay and S. Erland 577
Corrigendum 587
Erratum 589
